● SAMPLE CONSULT MESSAGES — WHAT WE OPTIMIZE FOR

@priya_kapoor.delhi: "Acne marks ka consultation available hai? GK-2 clinic location?"

@nehaa.mumbai: "Laser hair reduction package price bhejo please. Is it safe for Indian skin?"

@ria.bandra: "Pigmentation peel consult Thursday ko available hai kya?"

Plain meaning: the reel is not the sale. The reel starts the patient conversation on WhatsApp; your clinic converts that conversation into a consultation.

INSTAGRAM GEOTAG REACH: local women within 5km. Reel posted from your clinic location creates neighbourhood-level consult discovery.

WE MAKE SURE CREATORS ACTUALLY POST.

× WHY DERMA CREATOR CAMPAIGNS FAIL

- ✗ **Wrong creator location:** A creator can get views in another city and still bring zero local consults.
- ✗ **No geotargeting:** Views come from outside the city, not people who can visit your clinic.
- ✗ **No ROI tracking:** The treatment is given, the post goes live, but nobody tracks consult inquiries.
- ✗ **Creators ghost:** Some creators take the service and never post without a controlled workflow.
- ✗ **Wrong treatment timing:** Laser, acne, pigmentation, and bridal skin content need different booking windows.

■ REALISTIC PILOT EXPECTATIONS

WHAT ONE LOCAL REEL CAN REALISTICALLY CREATE.

We do not promise fake virality. We optimize for local reach, qualified WhatsApp inquiries, and derma consult demand during strong treatment windows.

5K-80K

local reach depending on creator fit, service visual, and season.

3-15

WhatsApp inquiries from women asking price, slots, or treatment details.

1-8

realistic consults from one strong local reel when the offer is clear.

5/CITY

partner clinics onboarded per city to avoid creator overlap.

BEST FIT

Derma clinics
Aesthetic clinics
Laser clinics
Skin clinics
Hairfall clinics

NOT IDEAL FOR

No doctor approval
No Instagram presence
No consult intake
No weekday slots
No clear treatment menu

MOST IMPORTANT VARIABLE: the content must feel medically credible and visually clear. Acne, pigmentation, laser, glow, and hairfall journeys perform best.
