

H2O SALON PATNA

Mobile-Friendly Instagram Content Strategy Proposal

Prepared on 2026-05-31

Objective

Turn the Instagram page into a cleaner premium brand presence that reads well on a phone, increases bookings, and makes H2O Salon feel more luxurious, trusted, and locally dominant in Patna.

- Use fewer heavy contact banners and more visual breathing room.
- Prioritize transformation, education, ambience, and testimonials.
- Keep captions short enough to scan on mobile.
- Use Patna location keywords and booking CTAs consistently.

1. Strategy Summary

Positioning

Premium, editorial, local, and expert-led.

Pillars

Transformations, education, authority, lifestyle, offers.

Format Mix

Reels 16-18, carousels 6-8, statics 4-6, stories daily.

Visual Direction

Warm black, ivory, champagne gold, beige, and soft brown.

2. 30-Day Content Plan

Days 1-7

Hero bridal transformation, hair care carousel, ambience post, party makeup reel, client review, service explainer, BTS stories.

Days 8-14

Bridal skin prep, keratin myths, haircut education, team spotlight, hair spa reel, audience Q&A, party vs bridal.

Days 15-21

Testimonial reel, before/after collage, bridal look of the week, package breakdown, men's grooming, limited offer, glossy hair.

Days 22-30

Why clients trust H2O, top services carousel, bridal BTS, quote post, celebrity-style makeover, FAQs, recap reel.

3. Grid System and Next Steps

1 Use a 9-post rhythm: transformation, education, ambience, transformation, testimonial, explainer, transformation, trust, CTA.

2 Keep contact info on selected conversion posts only.

3 Use Patna geotags and keywords in every caption.

4 Reduce repeated template graphics and make more space for faces and finishes.

5 Track DMs, saves, shares, and call clicks weekly.

Recommended next step

Turn this into a Canva-ready monthly content system and produce the first 9-post batch with matching captions and cover text.
